SUBJECT: PUBLIC COMMENT FROM COMMUNITY MEMBERS - \$600 MILLION CARES ACT

The Navajo Nation received the CARES Act fund of \$600 million during the first round of allocation. In the coming days, the Navajo Nation will receive an additional amount from the remaining \$3.8 Billion distribution.

The Navajo Nation Council introduced Legislation No. 0115-20 to formally accept the funds.

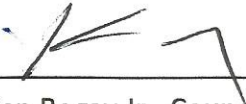

The Navajo Nation will soon begin detailing how the fund will be utilized.

To the five Chapters I am representing, I respectfully request the community member to submit a comment voicing your recommendation especially for the community you reside in. Please provide a written statement and submit to comment@navajo-nsn.gov

Please specify the community you represent.

I will be working with the local Chapter Officials and the Chapter Administration formulating a Position Statement advocating for community projects.

I am requesting your sincere participating to justify advocating for community projects. Your understanding and prompt response are greatly appreciated! Thank you and Be Safe!
