RESOLUTION
OF THE RESOURCES COMMITTEE
OF THE NAVAJO NATION COUNCIL

Establishing a Moratorium on New Structures, New Homesites and Range Units Within the Navajo Commercial Forest Pending Development and Approval of a New Forest Management Plan

WHEREAS:

1. Pursuant to 2 N.T.C., Section 691 and 695, et seq., the Resources Committee was established as a standing committee of the Navajo Nation Council with the responsibility to oversee and regulate all activities involving the disposition, or alteration of the natural state of the resources, and approving homesite leases; and

2. By 23 N.T.C. Chapter 7, Section 704, the Tribal Forest Manager is to develop a forest management plan for the development, protection and utilization of forest resources; and

3. By 23 N.T.C. Chapter 9, Section 902, the Resources Committee of the Navajo Nation Council is given authority to establish regulations for the forest as proposed by the Forest Manager; and

4. The Navajo Forestry Department is in the process of developing a new ten (10) year forest management plan for the commercial forest area; and

5. There has been a concern over increasing uses and developments in the forest that may limit future uses and management of the forest resources; and

6. The Forestry Department has recognized that the use of the forest has changed from a summer grazing use with seasonal sheep camp sites, to permanent homesites with increased utilities supplied; and

7. The Forestry Department recommends that a moratorium be placed on approvals of any new homesites or related structures within the Navajo Commercial Forest pending completion of the ten (10) year plan for the forest, to ensure future uses for the forest are not limited by today's unplanned actions.

NOW THEREFORE BE IT RESOLVED THAT:

1. The Resources Committee issues a moratorium on construction and approving any new homesite leases, range units and
related structures within the Navajo Commercial Forest, as identified on Exhibit "A", until a new ten (10) year forest management plan is approved by the Navajo Nation.

2. The Resources Committee directs all affected divisions, departments, programs, an entities to enforce this moratorium.

14. REPORT

a. Description of Undertaking: The proposed homesite will involve the construction of a home within the surveyed area. Construction activities will include ground disturbance (leveling, trenching, laying of pipelines, power line pole placement, stringing of power line). The area of potential effect equals approximately 43,560 sq. ft. (4,047 sq. m.) or 1.0 acre. An area of 126,324 sq. ft. (11,736 sq. m.) or 2.9 acres (1.2 ha.) was inventoried.

b. Existing Data Review: As part of this project, research was conducted using the Navajo Nation Heritage & Historic Preservation Department (NNHHPD) files in Window Rock, Arizona. Research reveals previous cultural resource inventories within one kilometer of the undertaking as follows:

<table>
<thead>
<tr>

<td>None</td>
</tr>
</tbody>
</table>

c. Area of Environmental & Cultural Setting: The proposed undertaking is located in Fort Defiance Agency, Sawmill Chapter, approximately 1.0 mile southwest of the Sawmill Chapter House, Apache County, Arizona. The project area is northwest of Red Butte (approximately 1.0 mile) at an elevation of 7,709 feet (2,349 meters) above mean sea level. The main water source for the area is Tohnaahchai Spring (approximately 0.3 mile southwest of the project area). The nearest ephemeral drainage is approximately 0.3 mile southwest of the project area. Vegetation in the area consists of ponderosa pine, juniper, gambel oak, snakeweed, rabbitbrush, cholla, prickly pear, russian thistle, low-lying perennials and other seasonal native grasses. No domesticated animals were noted within the project area. Surface sediment consists primarily of alluvial deposits with clay and pebble inclusions. The surrounding area has been impacted by the development of scattered homes and numerous secondary roads.

d. Field Methods: On August 29, 2020, Iris Shirley Begaye, archaeologist conducted the cultural resource inventory of a proposed homesite. The homesite area was located by the sponsor. The sponsor selected the center point to conduct a Class III pedestrian inventory by walking parallel and spiral transects with adjacent points spaced approximately 15m apart extending out to 200 ft. (61m) centered over the homesite area. The area of potential effect equals approximately 43,560 sq. ft. (4,047 sq. m.) or 1.0 acre. An area of 126,324 sq. ft. (11,736 sq. m.) or 2.9 acres (1.2 ha.) was inventoried.

In accordance with NNHHPD guidelines, the project archaeologist interviewed the sponsor to obtain information on potential traditional cultural properties (TCPs-herb gathering areas, blessed and/or sacred places or burials) in the vicinity. The sponsor was unaware of any TCPs in the area. Traditional Cultural Properties (TCP) research was conducted at NNHHPD Traditional Cultural Property Section and revealed no traditional cultural properties within the vicinity of the undertaking.

Subject: Proposed Home Site Lease for Marietta Octavo Nez

On May 24, 2021, I conducted an on-site field check for the above-mention applicant in reference to a proposed home site lease, located in the Sawmill Chapter Boundary. The proposed home site lease is in the commercial forest boundary; therefore, the Housing Moratorium Resolution (RCJY-142-92) does Apply. See attached map.

The proposed home site is located from N7, mile post 13.5, south on 9300 logging road approximately (1) mile, west (1/2) mile to the site, Nez family resident, Sawmill, Arizona. The site has scattered ponderosa pine trees on site. Approved Homesite Lease is required for utility line to be install for a Mobile home trailer structure on the proposed site. The ground is level for the structure. The site is next to her parents homesite and they have utility on site.

At the time of contact with the applicant she is renting at Navajo Housing Authority housing. Before the finalized homesite lease the applicant had commence activities on the proposed site.

GPS reading at the general area is N35° 53’ 5.11" / W109° 10’ 13.12”.

It is the opinion of the Navajo Forestry Department not to allow the applicant to establish a home site lease at the above mention site. It would be advisable for the applicant to contact the Resources Committee and seek guidance on the Committees intent with regard to this situation.

If you have any questions regarding the matter, call the department at (928) 729-4007. Thank-you.
